Message from the President

I hope those of us who attended the 1995 APALA program and membership meeting at the annual conference in Chicago came away as inspired and motivated about the future of Asian Pacific Americans as I was. Erlinda Regner, our 1995 President, presented a rich program, in the magnificent Washington Library Harold Center Auditorium, that reminded us to take pride in our achievements as scientists. attorneys, playwrights, poets, chefs, singers, pianists, dancers, or librarians. All in the annual program are our mentors.

the membership At meeting, the completely new Guidelines prepared by Dr. Karkhanis. received Sharad considerable attention and discussion. This is a sure sign that APALA, in an effort to formalize its operations, is supported by concerned members who are interested in the

democratic process.

During my presidency, I hope to build on what our leaders have established for us in the past 15 years. I am happy to report that Kyosik Oh and Fenghua Wang-Schaefer have agreed to stay on as the Membership Chair and the Newsletter Editor respectively.

At the same time, we need to face challenges together in view of the fact that most of APALA members are first or second generation immigrants. Specifically, the affirmative action college admission in and employment, long considered part of American institutions, is being questioned or discarded across the Worse, there is an country. anti-immigrant atmosphere sweeping the country. Already I received a request for APALA to participate in fund raising for the Washington Post Ad Campaign on "Justice for Immigrants". What is our response to be?

Such internal and external challenges are also our opportunities. In dealing with challenges and creating opportunities, I propose that we build unity internally and promote diversity externally. I am outlining the details as follows:

I. Build Internal Unity through Full Participation and Generous Sharing

a. Membership renewal: Please

send your renewals to Kyosik Oh soon.

b. Recruiting: If every member can recruit one new member, APALA can double its size.

c. Improved communication on the information highway: Rama Vishwanatham has agreed to explore the possibility of establishing a listserv for APALA so that information can be transmitted to members more quickly.

d. Mentoring: There is a plan to have a new "Mentorship" column in the Newsletter.

e. Sponsorship: To continue Erlinda Regner's agenda, every member is encouraged to look for sponsors for APALA programs.

f. Volunteerism: We need to volunteer ourselves to fill all the committee tasks, including the Program Committee and Local Arrangements Committee in New York. Share your experience and talents by volunteering on a committee, especially if the committee work will be important on your career ladder. Please send your resumes and proposals to me at 3111 Cedarbrook, Ann Arbor, MI 48105 or send me an e-mail to ADSEETOO@umich.edu by the end of September. The good news is that I am getting messages from some of you already. Please keep them coming.

II. Promote Diversity with Substance a. Promote publishers on Asian Americans or by Asian Americans: I propose that APALA highlights these publishers and help librarians broaden their horizon of acquisitions in the 1996 conference in New York City as it is the most appropriate place to showcase diversity and Asian American community.

b. Join forces to respond to challenges in affirmative action and immigration: Fenghua Wang-Schaefer has already prepared a prototype letter to legislators, distributed over e-mail. We need a task force to coordinate with other groups.

c. Organize ourselves to work with other groups for Dr. Ching-Chih Chen's bid for ALA's presidency: For the first time in the history of ALA, a foreign born and librarian and educator was nominated as the candidate for ALA's vice president next year. We need a committee to coordinate within APALA and with other groups.

In other words, we need to deliver. We need volunteers. APALA is what we do. Let me hear from you.

Send your membership renewals to Kyosik Oh's new address: Galewood-Mont Clare Branch Library, 6969 West Grand Avenue, Chicago, IL 60635. (Tel: (312) 746-5032.)

Amy Seetoo

EDITOR'S NOTE

So far, 1995 has been an eventful year. Personally, I started a new job and moved from Chicago to New York. I enjoy the change. On the national level, the country is undergoing tremendous changes as well.

Maybe, we are not looking forward to some of the changes. We, the immigrants, are once again becoming the target of attacks and scapegoats of American politics. Anti-immigrant sentiments are everywhere. Ironically, the sentiments correspond with a time when many libraries are trying to diversify their staff by actively recruiting minority members. In the midst of all the changes, one of our members, Ching-chih Chen has been nominated as a candidate President-Elect of the for American Library Association (ALA), a nomination which is extremely significant for us. Dr. Ching-chih Chen will be the first Asian-American to be nominated in ALA history. We congratulate

her, and wish her luck.

With all the things happening around us, one question we should all ourselves is WHAT SHOULD WE DO? Should we continue to be silent minorities waiting to be pushed around, or should we take the rights of democracy into our hand, and begin to act in order to ensure our positions and our children's future in this society. To achieve this goal, we need your participation. Only when we act together, can we really show our power and our influence. There are so many things we can do to contribute. They do not have to be gib; they do not have to take much of our time, but whatever you do will make a difference, however small it may be. One thing to start with is to write a letter to vour Congress(wo)men to let them know your opinions on the immigration issue. Another is to be active in our association. We need volunteers to edit columns for the You can APALA newsletter.

name your own columns or topics. There are so many things we can all do. All we need is to ACT!

Fenghua Wang-Schaefer

APALA Newsletter (ISSN: 1040-5817) is published quarterly (March, June, September, and December) by the Asian-Pacific American Librarians Association, Readers are encouraged to submit articles with the deadline of the 10th day of the month before publication, e.g. February for March issue. All submitted articles will become property of APALA and will not be returned to the authors(s) unless a SAS envelope is provided. The Editor reserves the rights to accept, edit, or refuse any submitted articles. All editorial comments should be sent to the Editor.

Editor: Fenghua Wang-Schaefer Co-Editor: Rama Vishwanatham Publication Committee: Fenghua Wang-Schaefer (Chair), Rama Vishwanatham.

MESSAGE FROM THE OUTGOING PRESIDENT

It is altogether fitting and proper for an outgoing president to thank those members of APALA whose contributions of their time, and energy to help make a successful program. In our case, however, there were corporate sponsors whose financial contributions have made the program so successful. These corporate sponsors are Anheuser Busch, Yankee Book Pebbler Inc., Highsmith and Gale Research. We, the APALA members, appreciate it very much! Without their contribution, the program would have been less ambitious. As for the committee chairpersons, Linda Hack, Nita Salutillo and Paul Epstein, who contributed so much time and effort to help arrange the program, I thank you too.

Our special thanks go to the speakers, Dr. Tun Hun Jeong, Sandra Yamate, Jackie Shen and Dwight Okota, and the great artists whose performance moved us so much. The artists are Luch and Nick Macabenta, Ester Hana, Gabriel Lingat, and the Taiwanese Youth Orchestra conducted by Grace Jiang.

On a more personal note, I would like to thank Dr. Sharad Karkhanis and Dr. Loudes Collantes whose personal help and assistance and support guided me through the year. I deeply appreciate the support from the Chicago Public Library, the host of the American Library Association, and all the members who came to the reception. If by any chance I have forgotten anyone, I apologize for that. Last but not least, my special thanks to APALA's Newsletter Editor, Fenghua Wang-Schaefer for all the "news" on time for all our members.

Best wishes in the future to all of you. Let us all work together to make the next APALA conference a successful event. Have a wonderful Holidays.

Salamat!

Erlinda J. Regner

LETTERS TO THE EDITOR

Dear Editor:

As you know, APALA members who are ALA members will have a golden opportunity next year to elect an outstanding candidate for ALA President, Dr. Ching-chih Chen. Her qualifications to lead our professional association are unsurpassed and the timeliness of her candidacy, during the beginnings of awareness of the "information age" and the building of on ramps to the Information Superhighway, could not be more fortuitous, given Dr. Chen's background and knowledge. What is especially exciting is that Dr. Chen is the first Asian American candidate for the Association's highest office in its 120 year history. I encourage APALA members to join me in supporting

Ching-chih Chen's presidential campaign, not just because she is an Asian American woman but because she is certainly the most qualified candidate.

I plan to ask for APALA's endorsement of Dr. Chen's candidacy at its business meeting during ALA Midwinter San Antonio and would appreciate the support of membership and officers in that effort.

See you in San Antonio!

Sincerely,

Kenneth A. Yamashita APALA President-Elect

CHING-CHIH CHEN - ALA Presidential Candidate

"Friends to Elect Ching-chih Chen" group is asking for your support during 1996 ALA Election. Help in the election campaign is welcome. Please contact the officers in your association. Campaign contributions can be sent to Friends to Elect Ching-chih Chen, 2 Anita Street, Rochester, NH 03867, payable to "Fund to Elect Ching-chih Chen."

Ching-chih Chen has been nominated as a candidate for ALA President Elect. Dr. Chen has spent over 35 years serving the library and information science community as an award-winning public and academic librarian, teacher, speaker, consultant, researcher, and innovator.

In addition to being author/editor of 26 books and over 100 journal articles and reports, Dr. J Chen has a devoted career as an educator in better preparing librarians for the new information age. She is a Professor and Associate Dean of the Graduate School of Library and Information Science at Simmons College, as well as an energetic director of over 60 continuing education institutes relating to information technology, management and policy. Her deep concerns in global internetworking of libraries around the world prompted her to organize a series of international conferences on new information technology (NIT) sponsored by the U.S. National Commission on Libraries and Information Science

As an active crusader in the ALA since 1976, Dr. Chen takes pride in furthering the association's endeavors through involvement as an author of the baseline document on citizens' information needs for the First White House Conference; three-term Councilor-at-Large (1981-1993); member, Legislation Committee (1981-1985); Chair, Legislative Committee (1984-1985); member, Council-elected Assembly of Planning and Budget (1990-1992), Director of the Board for the Library and Information Technology Association (LITA), and others. In addition to ALA, Dr. Chen has also been actively involved in various professional committees and Executive Boards of organizations such as the American Society for Information Science

(ASIS), the Association for Library and Information Science Education (ALISE), and the American Association for the Advancement of Science (AAAS).

A representative sample of the many awards and honors that Dr. Chen has received include the Distinguished Alumnus Awards from her alma maters including the University of Michigan School of Library Science (1980); the ASIS Outstanding Information Science Teacher Award (1983); election as a Fellow of the American Association for the Advancement of Science (1985); ALA's Certificates of Appreciation (1985, 1989, 1993); the LITA/Gaylord Award for Achievement in Library Information Technology (1990); the LITA/Library Hi Tech Award (1994); and the Emerson Greenaway Distinguished Award of the New England Library Association (1994).

In October 1994 MacUser chose her multimedia CD-ROM, The First Emperor of China, as one of their 50 best CD-ROMs, a product also honored by the Association for Visual Communicators with its Cindy Award (1992). Dr. Chen has been widely recognized by the Asian communities. She was honored by the Chinese American Librarians Association for its first Distinguished Service Award in 1982, and Pacific American Librarians the Asian Association's Distinguished Service Award in June 1992. She is also the recipient of the National Taiwan University's Distinguished Service Award in 1983, and the Distinguished Service Award of the Chinese Library Association in Taiwan in October 1983).

This extensive background positions Dr. Chen for the challenge of the ALA's commitment to establishing a presence in the new information age, as expressed in ALA Goal 2000, as well as

President Betty Turock's platform, as articulated in her Inaugural speech. Dr. Chen's career has included championing a free and open information society with goals of improving information services for everyone. Her high-degree technology competency and her strong desire to impart this knowledge led her to develop many baseline training institutes for librarians. For example, in 1994, she worked with the Massachusetts Board of Library Commissions under the sponsorship of the U.S. Department of Education in developing a series of 8 Science Reference Institutes offered to over 500 school and public libraries in Massachusetts. These institutes have already resulted in numerous innovative activities in MA as well as

proposals to the Board.

Dr. Chen holds a bachelor's degree from National Taiwan University, a master's degree in library science from the University of Michigan, Ann Arbor, and a doctorate in information science from Case Western Reserve University in Cleveland, OH. She lives in Newton, MA with her husband, Professor Sow-Hsin Chen of the Massachusetts Institute of Technology (MIT) and her 96-year old mother. They have two married daughters and one son -- Dr. Anne Chen, a genetic specialist with the Cornell Medical School, Dr. Catherine Chen, a senior residence in pediatric surgery with the Harvard teaching hospitals, and John Chen, a Ph.D. candidate in materials science at MIT.

APALA PROGRAM AT ALA 1995

One of the APALA program was the performance of a great singer and pianist, Ester Hana, whose beautiful voice and great lyrics have moved so many people to tears. One of her songs "I Am What I Am" was especially moving, and appropriate for us at this particular time. Ms. Hana sent us the lyrics to be printed here, and hope you'll enjoy it as much as we did at the program. - Erlinda J. Regner

I AM What I AM

(from La Cage Aux Folles Words/ Music by Jerry Herman)

I am what I am

I am my own special creation

So come take a look

Give me the hook or the ovation

It's my world that I want to have a little pride in My world and it's not a place I have to hide in Your life is a sham Till you can say

Thi you can say

Hey, world, I am what I am!

I am what I am

I don't want praise, I don't want pity

I bang my own drum

Some think it's noise, I think it's pretty It's my song, so, if you don't like the style I bring it My song, so at least respect my right to sing it Life's not worth a damn Till you can say Hey, world, I am what I am. I am what I am And what I am needs no excuses I deal my own deck, sometimes the ace Sometimes the deuces It's one life and there's no return and no deposit One life, so it's time you opened up your closet Life's not worth a damn Till you can say Hey, world, I am what I am

APALA MEMBERS & OFFICERS

H.R. 1915 by Rep. Lamar S. Smith (R-TX) Immigration in the National Interest Act of 1995

Official Title (Caption):

A bill to amend the Immigration and Nationality Act to improve deterrence of illegal immigration to the United States by increasing Border Patrol and investigative personnel, by increasing penalties for alien smuggling and for document fraud, by reforming exclusion and deportation law and procedures, by improving the verification system for eligibility for employment, and through other measures, to reform the legal immigration system and facilitate legal entries into the United States, and for other purposes.

Introduced on Thursday, June 22, 1995

OVERVIEW AND OUTLOOK - Copyright (c) 1995 Legi-Slate, Inc.

OVERVIEW:

The bill [H.R.1915] would attempt to control the flow of illegal immigration into the U.S. To accomplish this end, it would mandate comprehensive reforms in the laws and practices governing alien entry, immigration, and residence.

The legislation would strive to deter illegal entry and immigration through improving border patrols and facilities. For example, it would increase border patrol agents by 1,000 full-time equivalent positions above the number of such positions as of September 30, 1994. It would also mandate that the Immigration and Naturalization Service [INS] install additional obstacles to hinder unauthorized crossings into the U.S. Further, the bill would increase penalties against alien smuggling and fraud used to obtain passports and visas.

Concerning illegal aliens in the U.S., the measure would revise laws regarding undesirable aliens. It would seek to strengthen procedures used to apprehend, detain and remove inadmissible and deportable aliens, including alien terrorists. The bill would also provide for the exclusion and denial of asylum for alien terrorists. Further, it would strive to enforce employment restrictions concerning illegal aliens employed in the U.S.

In addition, the bill reform the would laws governing legal immigration. It would revise worldwide limits on immigration levels and on family-sponsored the and employment-based preference systems established by current law. Specifically, the measure would establish a worldwide immigration level of approximately 535,000 per vear. Of these. family-sponsored immigrants could attain levels of approximately 330,000; asylum seekers could total about 10,000 entrants; employment-based immigrants would be limited to

approximately 135,000; and the number of humanitarian refugees could not exceed approximately 70,000.

Moreover, the measure would deny public benefits to illegal aliens; specifically, public assistance. contracts. and licenses. with certain exceptions. It would also forbid individuals not authorized to be in the U.S. from taking the earned income tax credit. The measure would also prohibit them from receiving unemployment benefits paid from Federal funds. Further, it would require aliens seeking admission to prove that it is unlikely they will become a public charge.

Lastly, the legislation would propose to facilitate the legal entry of immigrants. To do so, it would improve border facilities and provide for additional land border inspectors in order to eliminate undue delays in the thorough inspection of persons entering the U.S. Also, the bill would establish preinspection stations

in foreign countries, at airports handling the largest number of arrivals into the U.S., to speed entrants' inspections. **OUTLOOK:** As of Friday, July 21, 1995, no committee hearings or other action had

been scheduled for this measure.

In response to the bill, many Asian American communities have initiated lobbying effort trying to block the anti-immigration bill which will further inflame the anti-immigrants moods in society. Your participation is needed in adding the effort. Please write to your senators and representatives to let them know your opinion on such matter. I am enclosing a sample letter I wrote. please feel free to adapt it.

Fenghua Wang-Schaefer

A SAMPLE LETTER

The Honorable Harris W. Farwell House of Representative 2159 Rayburn House Office Building Washington, DC 20515

Dear Representative Harris W. Farwell:

I am writing regarding HR 1915, the immigration bill. I urge you to vote against the bill because it threatens America's national interests.

As we all know, the United States of America was built by immigrants, and continues to prosper because of the contributions from the outstanding immigrants in all fields, particularly in science and technology. The greatness of American society, particularly its openness and its cherishing of democracy, attract people from other countries, who all look up to the nation as a land of opportunity and equality. However, the current bill will kill all the things people cherish the most in America, and block the most productive citizens of the earth, such as scientists, engineers and academics from contributing to build the American dream. This bill would make America lose the brightest people to our competitors in the global economy, ensuring that America will falter in global competition.

The argument that H-1B workers and employment based immigrants take jobs from qualified American workers cannot stand. In fact, they create jobs for America. In addition, H-1B workers are a minuscule and insignificant part of the American professional work force, hardly a numerical threat.

Therefore, I urge you to vote against the bill.

Sincerely,

Signed Fenghua Wang-Schaefer 6053 S. Drexel Ave. #2 Chicago, IL 60637

New publication

APALA member Nirmala S. Bangalore (University of Illinois at Chicago) helped edit a ACRL publication. "Science and new engineering conference proceedings : a guide to sources for identification and verification" (Chicago: Association of College and Research Libraries, 1995).ISBN: 0-8389-7785-5; \$16.50 (\$14.00 for ACRL members). Conference papers are problematic to identify, verify, locate, and process due to incorrect or incomplete citations. A discussion of problems involved along with some solutions, an extensive list of the major indexing and abstracting services in sci/tech literature covering conference proceedings (print

as well as electronic versions), and title and subject indexes to aid users in locating a particular resource make this a useful tool. To order contact: American Library Association

Order Fulfillment 520 N. Dearborn Chicago, IL 60610 Phone: (800)-545-2433.

Christina Y. Hyun has been appointed to be the Director of Whiting Public Library, effective as of May 9, 1995. Congratulations Christina.

Looking for the "anonymous" Frederick Wong (or Wang)!

During the APALA reception, a person paid \$10 membership due, and told the person that his name is Frederick Wong or Frederick Wang. However, he did not leave his address with us. If anyone knows him, please contact either Erlinda or the chair of the membership committee. Thank you very much.

PROFESSIONAL INVOLVEMENT

Get involved in your professional associations! APALA is affiliated with the American Library Association (ALA). There are many opportunities to serve on committees within ALA. Begin by looking at the "ALA handbook of organization, familiarize yourself with the divisions within it, identify your interests, then get down to details. Ideally, select one or more committees within a section that parallel your specialization and particular concerns. The best way to begin involvement is by filling in a volunteer form.

Before committing to any work consider that you will need to attend ALA Annual Conferences and Midwinter Meetings. Release time, conference funding, some on-the-job hours devoted to committee work should be looked into. Along with the filled in form, include an UPDATED resume, emphasizing experience relevant to the committee's charge (listed in the ALA handbook).

Be flexible: list more than one committee as preferences, indicating why you are interested in each one. Many committees accept INTERNS. Write a clear, legible application with all relevant information (include Email addresses). Attend Midwinter meetings and participate in topics of discussion. Approach the Committee Chair and show your willingness to take on assignments. Be aware that some committees are very popular and attract hundreds of applicants, so you may not succeed on your first try. Be persistent and explore all possibilities. The rewards of serving in professional associations are many. ALA is stressing diversity. APALA members already involved are ready and willing to help you with introductions and other assistance in getting appointments. Seek them out. Act NOW!

Submitted by Nirmala S. Bangalore.

<u>Acknowledgments:</u> The Editor and the Co-Editor would like to thank the Library of the Health Sciences, Chicago at the University of Illinois, (especially the Information Services Staff) for their support and allowing us to use the library's resources in producing this newsletter.

PAID ADVERTISEMENT

ASSISTANT LIBRARY DIRECTOR: Lincoln City Libraries is recruiting for the position of Assistant Library Director. This is highly responsible administrative and professional work in the overall management, coordination and direction of the library system. Seeking enthusiastic, dynamic individual with demonstrated organization and leadership qualities, demonstrated skills in written and oral communication, who can manage multiple tasks. Participates in overall library planning and policy formulation as a member of the library management team. Coordinating within framework of City policies and procedures, personnel actions involving selection, training, evaluation and retention of library staff. Supervises professional coordinators, supervisors, and office assistant. Assists in development and administration of library budget. Ideal candidate will also have diverse computer skills. Lincoln City Libraries use the Dynix system, has 6 branch libraries plus bookmobile service, and a collection of 500,000 titles. The operational budget is \$4.2 million with staff of 101.42 FTEs. Lincoln, the state capital has a population of 197,000, is an educational center with 2 universities and 3 colleges, has a rich culture and recreational resources, and is nationally recognized for its quality of life. **OUALIFICATIONS**: Graduation from a 4 year college/university supplemented by a master's degree from an ALA accredited library science program plus 4 to 6 years professional and supervisory experience, 2 years of managerial experience and some experience in personnel, planning, and with computers or equivalent.
